## HAMMOND 44HP "High-Power"

The newest member of the Hammond-Suzuki Melodion family is the 44HP or "High-Power" model. Taking the 44 a step beyond, the 44HP has new reeds that give a brighter, louder sound. The perforated body allows more sound to escape, making this model perfect for electric band use. Like the 44, the 44HP has a built-in microphone, and comes with a padded gig bag, 3 different mouthpieces and cleaning cloth.

## HAMMOND 44

This deluxe Melodion is the first to sport a 44-note keyboard and a built-in microphone with volume control. Its strong yet lightweight construction is built to last, like any Hammond. Its tone is warm and deep, from the phosphor bronze reeds. Comes with padded gig bag, 3 different mouthpieces and cleaning cloth.

Short mouthpiece  
MP-141

Flexible mouthpiece  
MP-161

L Joint long mouthpiece  
MP-171

## HAMMOND BB

The sound of a Bass Harmonica is unique and haunting. The Hammond BB makes it easy to add this color to your tonal palette. It is also a necessary component of any Melodion ensemble. The BB has the same fine build quality as the 44 and 44HP, 24 keys, and 2 built in independent microphones. It comes with 2 mouthpieces, a padded gig bag, and cleaning cloth.
